EDITORIAL NOTES.

The systematic care with which a great public project is investigated in France is illustrated by the examination now in progress as to the proposed inland sea in Africa, south of the Department of Constantine. A commission of 50 members, including many of the leading men of France, and presided over by M. de Freycinet, is considering the project in every light. It has divided itself into three sub-commissions, of which the first is examining the practical difficulties to be overcome; the second in physical, meteorological and hygienic consequences of the work; and the third the political, commercial and maritime results to be expected. If the three sub-commissions report favorably, a fourth will be formed to decide whether the work should be undertaken by the State or left to private enterprise, and on what terms. In this country they would send out a couple of old broken down politicians, who would go off on a spree at Government expense, and their report would be based upon the amount of money they saw in the project for themselves.

By a singular coincidence no sooner have the relics of Jesse James, the lamented, set out on a lecturing tour, than there is a bold bank burglary in northern Missouri. It is impossible to escape one or two conclusions from this circumstance. Either Jesse's spook is at work in order to illustrate the "lectures" of his female relatives, or the relatives have hired Frank James to continue the business of the firm for the sake of giving piquancy to the performance. Governor Crittenden ought to offer a fresh reward for Frank, dead or alive, and for Jesse's ghost, material or immaterial.

It is nonsense to talk about honest professional politicians. There never was such an anomalous creature. When a man makes politics his business, he dips into all kinds of rascality, fraud and deceit. They are most always decent sort of fellows and have a glimmer of decency about them in a sort of negative way, especially if they aim high; but the pot-house politicians of San Francisco, who make conventions and name candidates are the scum of their class, the ruling clique being composed principally of bummers and loafers.

From a reliable Democratic source we learn that George T. Marye has retired from the Democratic gubernatorial contest and that J. W. Adams seems to have the inside track for the nomination. The friends of Captain Matt Canavan claim that they will carry Storey and Ormsby, sure. Should he succeed in doing so it is more than likely he will be the nominee. It is said that the friends of Hon. Jerry Schooling are trying to persuade him to reconsider his determination to keep out of politics and make a fight for the place.

The Illinois Board of Health has decided that the diploma of a medical college will not entitle the bearer to practice in the State unless the college has a three years' course, requires dissection through two years, has clinics for two terms in each year, enforces attendance on eight-tenths of its lectures, and confers degrees only after examination. These conditions would choke the professional wind out of two-thirds of the practitioners on this coast, and give the other third a rough deal.

A thousand poor Christian families are fleeing from Egypt. They are leaving all their provisions and are destitute. Even natives talk of quitting the country. Next year's crops are ruined, and it is difficult to see what can prevent a famine.

Just before his accession to power in Egypt, Arabi Bey was a petty employee of a Cattani firm where his duties consisted merely in inspecting supplies of fodder.

Governor Kinkaid to-day received a dispatch from Congressman Cassidy stating that the bill to pay Nevada Indian war claims had passed.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN.

THE IOWA CYCLONE.

The Helpless Sufferers Appeal to the Country For Aid.

DES MOINES, June 21.

The following appeal for aid is furnished the Associated Press:

To the Public—After two days and nights spent in traversing the track of the tornado, and having reports from scores of reporters sent to all parts of it, I find the condition of the stricken people so piteous and so needful of instant and generous help that I send this appeal to the people of the United States in their behalf. The tornado made a swath of destruction through a thickly settled portion of Iowa 150 miles in length and an average of half a mile in width, extending from a point south of Ames in the center of the State, and swept in the shape of a crescent to South English, in Keokuk county, in the south eastern part of the State. We have names now of 69 dead and 500 wounded. Half of the latter are pitiable and helpless. All that the people of Iowa can do will be done to alleviate their condition and repair in part the losses of the sufferers; but it will take

ONE MILLION OF DOLLARS.

Children with both parents killed were left maimed and wounded themselves. Every condition of woe exists that most tenderly appeals to the pity of human hearts. The wounds inflicted by debris that filled the air like chaos, by the electric balls of fire that seemed to traverse every inch of space, and that exploded with fearfully fatal effect, will many of them defy all skill and nursing. The storm took upon its great spiral or funnel houses a thousand feet high, and took up and carried large bands of cattle through the air for thousands of feet and dashed them down dead in heaps. Many thousands of cattle, horses, hogs and other animals now lie in the track of the tornado. It will take the help of every humane city and town in the West, and every liberal city and town in the East to put comfort and safety between these

STRICKEN PEOPLE

And further suffering and fatality. Grinnell is a town of New England people, thrifty and intelligent, with the lowest rate of crime and illiteracy in the State and the highest rate of intelligence and morality. The Moloch of the air has killed 50 of their people, destroyed 160 of its houses, maimed and mutilated 200 more of its people, many of whom will soon die, and all of whom must be cared for, for months, and wiped out totally nearly half a million dollars in uninsured property. Iowa college has had all its buildings destroyed, its 400 students homeless, and has suffered a loss of \$75,000 in uninsured property. The condition of other towns and farming communities is fully as bad.

THREE HUNDRED FAMILIES

Have had their houses totally destroyed, and there are at least 1,300 homeless and in want. The loss in property will exceed \$2,000,000, and may reach \$3,000,000. In Grinnell alone over \$400,000 in property was destroyed, on none of which was a cent of insurance as in case of fires. It will take at least \$300,000 at once to put the people there beyond need and distress. It will take \$100,000 at once to put the wounded people in a condition to be cared for. It will take \$1,000,000 at the lowest to keep the sufferers from want and help them to put the humblest of roofs over their heads. The people of Des Moines and Iowa are responding generously. The citizens of this city have subscribed \$8,000 this morning and will make it \$20,000 before night, in money, and are also sending provisions and clothing besides.

FURTHER PARTICULARS.

Reports from Story county indicate further destruction west of Kelly. Mr. Clark and daughter at Garden Prairie, and Turner's house and barn were destroyed and his horses carried a mile and dashed to pieces. Roberts lost his barn and three horses. George Lewis' house was wrecked. He and his wife and daughter held to a wire fence. Irving's barn and other buildings were swept away. Prof. Macomber of the Agricultural College says the commencement of the cyclone was in the southeast corner of that county. It divided, one branch going north one and a half miles, tearing Mr. Clark's house to splinters. Half a mile further on the houses of Turner and Roberts were

COMPLETELY WRECKED.

South of Ames it spread. Cattle were twisted up and torn to pieces on wire fences. The width of the funnel, Macomber said, was 300 feet, tearing trenches in the ground from one to three feet deep and fifty feet in length—this in sod or hard road, indiscriminately. It is thought these trenches may have been plowed by wrecks of houses. This branch of the tornado went toward Kelly, where the damage has already been described. The south branch started at Garden Prairie, Boone county, at 7:30; it was south of Ames at 7:45; at Grinnell at 8:45, and at Mt. Pleasant at 9:45. They describe the storm-cloud as like a long rope swinging back and forward and reaching from sky to earth.

Michael Davitt in Boston.

Boston, June 21.
Eight thousand people gave Michael Davitt a loud and prolonged greeting as he appeared last night on the plat-

form of the Mechanics' Fair building accompanied by John Boyle, Mayor Prince presided. When the applause subsided Davitt read a carefully prepared address in calm and dispassionate language. It was a presentation of the wrongs and grievances of Ireland and remedies which in his judgment should be applied. He explained that his address was intended rather for an American than an Irish audience and it was an appeal to the understanding of the American people through their press. The position of the American people is a purely judicial one, and public opinion in this country will only consider facts and statistics as presented by the Irish Land League.

The speaker then presented statistics, and argued that landlordism as it stands to day is a wretched, complete and unmitigated failure, and under its rule the peasantry are compelled to live in one roomed huts on inferior diet, amid agrarian crimes, murder and disaffection. He then proceeded to show that for the last 70 years millions of dollars have been extracted yearly from the labor and soil of Ireland by some 10,000 individuals who contributed scarcely anything to the country themselves. Side by side with the vast decline of Irish wealth, during the last century, are no less than five famines, and millions of pounds have been abstracted by the few landlords, and yet Englishmen cannot understand why we want this state of things abolished.

Shannon's Luck.

WASHINGTON, June 21.

The House Committee on Ways and Means reported favorably the bill recently passed by the Senate authorizing the accounting officers of the Treasury in settling the accounts of T. B. Shannon as Collector of Customs at San Francisco, to credit him with the sum of \$4,777, the amount paid out of the sub-treasury at San Francisco upon a draft erroneously signed by him in favor of J. C. Merrill & Co.

Indians and Cow-boys.

LITTLE ROCK, June 20.

A telegram received here this morning says: During a fight between cow-boys and Indians on the border of Indian Territory, four of the former were killed. Colonel Alexander Polk, of Howard county, had employed some cow-boys to drive a herd of 2,000 cattle to Colorado. The boys were herding the stock in the Nation, en route for their destination, and were ordered to remove them. They failed or refused to do so, when a fight ensued.

The Coal Mine Fire.

WILKESBARRE, Pa., June 21.

The fire at the Diamond mine is confined to a large pillar of coal 600 feet from the face of the gangway. If it can be kept back of that it will be extinguished within ten days. During the day a strong explosion occurred and was felt at the surface. It is reported that a great quantity of gas is accumulating in the workings and fears are entertained that it may explode.

A California Scholar Honored.

New York, June 20.

Dr. Joseph Boyce, who has recently been appointed Instructor in Philosophy at Harvard, was graduated by the University of California: He then studied philosophy in Germany one year, and at the John Hopkins University three years, receiving the degree of P. D. at the completion of the course.

An Arizona Appointment.

WASHINGTON, June 21.

The Senate in executive session confirmed the nomination of Daniel H. Binney of Illinois as Associate Justice of the Supreme Court of Arizona.

WESTERN.

The California Democratic Convention at San Jose.

SAN JOSE, June 21.

The convention was called to order at 10 A. M. Committee on credentials reported the San Francisco contest decided in favor of H. G. Platt. Report adopted. Committee on permanent organization reported in favor of Boggs as permanent President.

Order of Business—Selection of State Central Committee by the Convention, one from each Senatorial district and two from each Congressional district. Nomination of officers, as follows: Governor, Lieutenant Governor, two Justices of the Supreme Court, two Congressmen at large. Other State officers follow.

The report recommends that Railroad Commissioners, Congressmen and members of the State Board of Equalization be selected by the respective district delegations at their pleasure. Report adopted.

Fowler offered a plank in the platform requiring the Railroad Commissioners to reduce freight and fares twenty per cent, and retain the reduction during their term of office. Terry said he could support the resolution if the wording should be changed to make reductions in present tariff aggregating twenty per cent. A long discussion ensued. Fowler, White of Los Angeles, Griffith of Fresno, Enos of Sonoma and Fiedley of El Dorado favored the plank. Flourmey, Bain of Colusa, Paulsell and

Williams of San Joaquin were opposed. Fowler's motion was lost—ayes 195, noes 221. The platform has been adopted as it came from the committee.

The report requires all balloting to be *in vivo*, and when the vote of any delegate or delegation is cast and recorded, such vote is not to be changed upon that ballot. All candidates other than judicial who are present in San Jose are to appear before a ballot is taken upon their nomination and endorse the platform and resolutions of the convention. The permanent Vice-Presidents are J. O. Martin, Niles Searls, J. H. Budd, J. Debarth Shorb and T. B. Bishop; Secretary, E. F. Smith. David Terry, chairman of the committee on platform, reported resolutions.

Martin, of Alameda, presented a minority report in addition to the majority report. It requires that each candidate for Railroad Commissioner shall pledge himself to reduce railroad tariffs at least 15 per cent. after his election.

The Democratic Convention platform reaffirms fidelity to the principles of Democracy; thanks the party throughout the Union for its assistance in the struggle in Congress with a hostile Republican administration against Chinese immigration, thus illustrating fidelity of the party to pledges given in the national platform; recognizes the right of local self-government; appreciates the movement of the workmen of the east, notably of Pennsylvania, in opposition to moneyed corporations and monopolists of Chinese trade who under a humanitarian cloak are endeavoring to thwart efforts in behalf of white men in California; denounces the Chinese now in California as an unmixed curse to this people and an insurmountable obstacle to progress; appeals to the Democracy of the United States for deliverance and demands that the next National Democratic Convention shall declare the doctrine of self-preservation, and if it attains to power shall take prompt steps for the removal of every Mongolian from the country; that the pretence of Republican leaders and organs that the ten years law has taken the Chinese question out of politics is deceitful in purpose and false in facts, so long as the Chinese remain in the country; declares the enmity of the party to all sumptuary legislation and laws restraining the exercise of political and religious opinion, and demands the repeal of those now existing; demands a material reduction of railroad fares and freights and a prohibition of discrimination against localities or persons; condemns a majority of the present State Board of Railroad Commissioners; pledges Democratic nominees to carry out the letter and spirit of this resolution; advocates compelling railroads to pay taxes on assessments; holds that all railroad land grants lapsed by nonfulfillment of contracts should be revoked and the public domain reserved for actual settlers; that it is the duty of the Government to protect and improve rivers and harbors; favors civil service reform in accordance with the Pendleton bill, and denounces the attempt to run the State University in the interests of the Republican party.

The convention proceeded to consider the platform by planks.

The Sunday law plank was adopted, 280 to 167, after a vigorous discussion.

The convention adjourned until 3 P. M. There is some prospect of no nominations being reached to-day. There is not much change in the situation. Hearst's managers seem to be growing more confident of his nomination, but they do not regard the rule against changing votes in his favor.

Alaska News.

SAN FRANCISCO, June 21.

Alaska news, via Port Townsend, is that at Harrisburg the snow is fast disappearing. Active preparations are making for resumption of mining operations. A slight Indian disturbance was promptly suppressed by Lieutenant Benson at Fort Wrangel. Business is fairly active. The Indians are quiet at every settlement in the Territory. Citizens are protesting bitterly against the tardiness of Congress in providing a civil government. Sitka advises are to the effect that since the Wachusett left the Indians have exhibited signs of discontent. The commander of the marine guard had his hands full to preserve order on the night of May 19 while arresting some drunken Indians. One of them struck a corporal of the guard with a club, who shot him down. Great excitement and disturbance imminent. The guard was under arms the whole night and citizens assembled at the Custom House, where the Government armory is located. The Indian did not die and the trouble quieted down. The arrival of the Corwin had a depressing effect upon the malcontents. The liquor law is enforced so strictly that no prescription in spirits can be had for medicinal purposes. The marine guard was left without a surgeon. Two surgeons of the Rodgers who arrived in the Corwin have been kept steadily occupied since they arrived.

A Rich Mineral Country.

TUCSON, June 20.

S. R. DeLong, Engineer of the Tucson and Gulf of California Railroad, and his surveyors, returned to-day, having completed the location of the line from this city to Port Lobos, on the Gulf. The distance to tide water is 200 miles. In no place is the grade more than 70 feet to the mile,

and the average is 80 feet. The entire route is over plains, and passes near and through vast regions rich in mineral. Gold, silver and copper crop out in all mountains. It also passes near an extensive anthracite coal bed in Sonoma, about forty miles from the American boundary line. Port Lobos is completely protected from the prevailing winds. The cost of grading the line will be a small item in construction, as there are very few cuts or fills. There are but two rivers on the line, the Santa Cruz and the Altar.

A New Trial for the Strangler.

SAN FRANCISCO, June 21.

The Supreme Court has reversed the decision of the lower Court in the case of George Wheeler, the strangler, and granted him a new trial.

Railroad Change.

MONTREAL, June 21.

The officials of the western section of the Occidental Railway are notified that that portion of the line will be transferred to-night to the Canadian Pacific Railroad Company. Baker, of Ottawa, will be the new manager. No change will be made in the staff of the road.

TELEGRAPHIC BREVITIES.

The corner stone of the Garfield memorial church will be laid July 2d at Washington.

The Senate Judiciary Committee recommended the confirmation of the nominations for the Utah Commission.

At Hoboken, N. J., the long-shoremen, 300 in number, employed at the Hamburg and Bremen docks, quit work yesterday morning.

Senator Fair, of Nevada, is said to have subscribed \$500,000 towards the construction of Senator Camden's new railroad from Wheeling to Parkersburg, West Virginia.

At Cleveland, O., editor Cowles, of the Leader, was found guilty to-day of technical assault on Father Houck, Bishop Gilmore's secretary. He paid costs.

Twenty-five striking miners at Pittsburgh began work to-day. It is thought that unless they can be induced to come out a general breakout of strikers will follow.

The typos connected with the daily papers of Buffalo generally quit work yesterday, demanding an increase in compensation from 30 to 33 cents per 1000 ems to 33 and 35 for day and night work respectively.

The steamship City of Tokio, which arrived at San Francisco from Hongkong, brought 1,070 coolies, and the steamer has been placed in quarantine until the passengers can be examined.

The Johnson Harvester Works, at Rockport, N. Y., were burned yesterday morning; loss, \$500,000; insured for \$200,000. One man was burned to death; 450 men are thrown out of employment.

Fighting has begun between rival chiefs in Zululand. A large army under Dabuku, a brother of Cetewayo, defeated chiefs Usebepau and Oham. It is expected that Dabuku will attack John Dunn.

Seventy-five people have been poisoned at Adrian, Mich., since Friday by eating a certain brand of cheese; none, however, fatally. A microscopic examination shows it is filled with some unrecognized parasites.

The Senate passed the bill appropriating \$9,930 to reimburse C. N. Fulton, late Assistant Treasurer of the United States at San Francisco, for losses incurred by him in the payment of forged vouchers of United States disbursing officers.

The London Times says the Lord Lieutenant of Ireland and his subordinates, after a careful investigation, are convinced that crime in Ireland is not sporadic, but that its machinery is deliberately set in motion through organized agencies, commanding large resources and obeying impulses of foreign origin.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent erections of the bladder, often accompanied by slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milky hue, again changing to a dark and turbid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the result of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genital-urinary organs.

UNCLE BEN JO'S

GREAT SOUTH AMERICAN PA ACEA.

UNCLE BEN JO was born in Boston, in 1800. Being a botanist, he effected many wonderful cures with roots and herbs. In 1844 he went to South America to study botany, and while there accidentally made the great discovery. The natives of this country were quite familiar with it, and had always supposed it to be a poisonous herb, which they used for the sole purpose of keeping snakes away from their tents or houses. They did this by laying it in a circle about the same at a proper distance off. This herb, Uncle J., as well as the natives, considered a very obnoxious and poisonous one, and when green and fresh it threw off a very distasteful and repulsive odor. The herb grows about two feet high, and about eight inches of the top part of its stalk is leafless, and this part looks over and hangs downward perpendicularly, and from its curved neck it ends in a small, pointed, and on the end of the same is a large, burly-looking ball, which stalk and ball, in this hanging position, looks precisely like the tongue of a bell. Hence Uncle J. named it the Bell Tongue Plant. In South America this herb is found in the extreme interior of the country, and the natives there call it "Zarr Nero." It is a wonderful cure of kidney and liver diseases, also, dyspepsia, neuralgia and rheumatism. We have a whole library full of testimonials. Sold by OSBURN & SHOEMAKER, Reno, Nev. nov25
